# SUPERJUICE™

## *Our Customers Say It Best!*

Pet SuperJuice has been used by thousands of dogs, cats and ferrets. They all have one thing in common - their success with Pet SuperJuice!

**WEANING:** We love this product! We have small dogs that are often hard to wean and don't take well to eating food. One spray of this and they are eager to eat. Sherri W., Oklahoma Dog Breeder.

**HEALTH:** I love this product and have three dogs on it. Thank you and please let me know where I can buy this wonderful product...it's the best product I've ever used! Joanne G., Pennsylvania Dog Owner

**DIGESTION:** I really feel your Pet SuperJuice has helped my border Collie with his digestion issues, but unable to get more where I live. I am nearly out of the product and don't want my dog to be without it! Marla K., Kansas Dog Breeder

**RECOVERY:** We had one coon hound recovering from heartworms that was just skin and bones. We put him on "the juice" and he gained weight, looks fabulous and performs beautifully. The odor in our kennel has also been drastically reduced. Rosemary D., Oklahoma

**PUPPIES:** Since using Pet SuperJuice on our puppies, we've seen a lot of health benefits during their critical time of birth through weaning.

**IMMUNE SYSTEM:** During this winter's terrible ice storm we had to take care of 30 kennels - not one dog became sick and they were all on Pet SuperJuice! Judy D., Colorado dog breeder.

**ODOR:** What can I say, IT WORKS! Two days after spraying Pet SuperJuice on my cat's dry food the litter box odors were completely eliminated. The folks at Pet SuperJuice are great to deal with as well. I will definitely be a repeat customer. Paul S, New Jersey Cat Owner

**LESS CLEAN UP:** Using Pet SuperJuice has reduced my clean-up by 50%! In addition our feed bill has reduced due to the fact that the dogs eat less due to better digestion of nutrients. Carolyn C, Missouri

**FERRETS:** We start our ferrets on Pet SuperJuice as soon as they come into the store. The smell goes away very soon thereafter. The pets seem calmer, they eat better and show more interest and are very playful. Our ferrets generally live longer and we believe the "juice gives them a longer, healthier life. We believe that this product gives our pets benefits that other products don't have. We had a customer come into the store and loudly exclaim that ferrets really stink. I told him to lean over their cage and sniff, which he did. He looked at me with disbelief and said "they don't smell". I laughed and said "it's the Pet SuperJuice"! Ernie T., Pet Store Owner, Oklahoma

**DIARRHEA:** Since using Pet SuperJuice we have not had diarrhea problems in the kennel and during transportation to new homes. Puppies are healthier and customers are happy. Carolyn C., MO

**GAS:** I sent this product to my daughter for her lab that had terrible gas problems. Since using Pet SuperJuice the gas problems are gone! Carolyn C., MO
